

INTERNSHIP OPPORTUNITY

Work outside this summer and learn how to install rain barrels and rain gardens with Clean Wisconsin!

Duties:

- Community outreach
- Small-scale green infrastructure installations
- Meeting with partners
- Planning and attending events
- Some landscape work

What is green infrastructure?

Green infrastructure is an approach to stormwater management that protects, restores, or mimics the natural water cycle.

As a resilient communities program intern, work will include the installation of small-scale green infrastructure (GI) such as rain barrels and rain gardens.
